

Declaration of Personal Sovereignty

I. No one - no government, no corporation, no business, no individual or other entity under the sun - has the right to poison us or put toxins in our food, water, medicines, clothing, homes, automobiles, etc. Likewise, no one has the right to injure or harm us through any governmental law or statute, rule or regulation. Neither does any corporate process or procedure, which harms or defrauds, have any legitimacy in law.

II. The governments and corporations of the world are the primary offenders in this regard. They must each be identified by name so that they can be issued an immediate **CEASE AND DESIST ORDER** by *We The People*.

III. Only by calling out each corporation for their unlawful or injurious conduct, and naming their CEOs, Presidents and Board Chairs for their criminal behavior, will sufficient pressure be exerted to effectuate genuine, systemic and lasting change.

IV. If they continue their illegal behavior, they should be forced to resign. Likewise, their collaborators, throughout federal, state, and local governments, should be forced to relinquish their public roles.

V. Only in this way will the proxies of the *World Shadow Government* (WSG) be held accountable. As the WSG-selected puppet governments are forced to stand down*, and their corporate chiefs compelled to resign*, the WSG will lose its power and control over *We the People*.

VI. These are the most effective actions that the inhabitants of Planet Earth can perform at this critical moment in history, in order to successfully safeguard their personal sovereignty. Only by taking back their power from those who have stolen it, will each human being begin the task of becoming a sovereign entity.

VII. Each resident of the global community can reclaim their personal sovereignty only by standing in their own truth with courage and resolve. By speaking truth to power wherever and whenever appropriate, they will then bond with likeminded individuals who have likewise taken back their power.

VIII. As the unity of purpose and strength of conviction grows within the citizenry, a critical mass of people power will emerge. The collective will and unified intention will then translate into the actions required toward attaining true sovereignty on the collective level, especially in matters concerning the state and one's sovereign nation.

IX. A return to personal sovereignty is what the *Founding Fathers* of the American Constitutional Republic first accomplished before they signed the "Declaration Of Independence". *We the People* will do well to imitate their courage and resolve during these revolutionary times. Truly, the opportunity for profound and permanent planetary

transformation comes infrequently to Planet Earth.

X. The 2nd American Revolution has begun; only this time it is a global revolution. ***Let's get busy!!!***

**Any response less than an immediate resignation of all culpable corporate officers, as well as a standing down of all accountable government officials, ought to result in aggressive criminal prosecution followed by severe prison sentences.*
